Project Demo Planning

Date	29 September 2026
Team ID	SWTID-2026-6221
Project Name	Importing & Securing Employee Training Data in ServiceNow
Maximum Marks	1 Mark

Project Demo Planning:

A structured demonstration will present the Employee Training data problem, ServiceNow solution, live import and relationship workflow, security validation, and future scope in a clear sequence.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the need to import employee training data accurately, link records to employees, and secure access.	2	Team Member 1
2	Solution Overview	Explain the Employee Training table, Import Sets, Transform Map, Employee reference, dot-walking, roles and ACLs.	3	Team Member 1
3	Data Import Demonstration	Upload the Excel file through System Import Sets, create the Employee Training import set, and show the imported records.	3	Team Member 2
4	Transform Map & Dot-Walking Demonstration	Show field mapping, run the transformation, open an Employee Training record, and demonstrate Employee → Department dot-walking.	4	Team Member 3
5	ACL Testing & Result Demonstration	Show HR Manager access, Read/Write behavior, and impersonation testing for authorized and unauthorized users.	4	Team Member 4
6	Conclusion & Q&A;	Summarize implementation, limitations, scalability, security, and answer evaluator questions.	3	Team Member 5

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly introduce the Employee Training data-management problem and the project objective.
2	Solution Overview	Explain how ServiceNow Employee Training, Import Sets, Transform Maps, reference fields, dot-walking and ACLs work together.
3	Live Feature Demonstration	Upload Excel data, transform the records, show Employee and Department information, then demonstrate role-based access.
4	Q&A; Session	Answer evaluator questions about implementation, testing, security, reporting, limitations and future enhancements.
