Project Demo Planning

Date	29 September 2026
Team ID	SWTID-2026-6221
Project Name	Importing & Securing Employee Training Data in ServiceNow
Maximum Marks	1 Mark

Project Demo Planning:

A structured demo plan ensures that the Employee Training project is presented clearly, covering the problem, solution architecture, live configuration/features, security verification and Q&A.;

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem	Explain the need to import training records accurately, link employees and control access.	2	Team Member 1
2	Solution Overview	Explain Employee Training, Import Sets, Transform Map, Employee reference, dot-walking and ACL architecture.	3	Team Member 1 / 2
3	Data & Table Setup	Show the Employee Training table, fields, Status choices and sample imported records.	3	Team Member 2
4	Live Feature Demonstration	Demonstrate Excel import, Transform Map, Employee → Department dot-walking and Read/Write ACL behavior.	6	Team Member 3 / 4 / 5
5	Verification & Outcome	Show authorized and unauthorized user results and administrator access.	3	Team Member 5
6	Q&A;	Answer evaluator questions and summarize the security/data-management model.	3	Team Member 6

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for accurate Employee Training data import and role-based access.
2	Solution Overview	Explain the custom table, Import Sets, Transform Map, Employee reference and ACL operations.
3	Live Feature Demonstration	Upload/import data, show Department dot-walking, and verify Read/Write permissions using impersonation.
4	Q&A; Session	Discuss configuration, security, testing, limitations and future scalability.
